Davao del Norte State College (DNSC) has a rich history, originating as the Davao Regional Institute of Fisheries Technology (DRIFT). On February 14, 1995, it was officially converted into DNSC under Republic Act 7879. This significant transformation is celebrated annually on February 14, coinciding with “Heart’s Day,” to honor the visionaries and contributors who have propelled the College to its current stature.

The 30th Charter Day celebration is a momentous occasion to reflect on and celebrate DNSC’s journey of excellence and innovation. This milestone is not just a testament to the College’s longevity but also to its unwavering commitment to providing quality education, pioneering research, impactful extension services, and robust production initiatives.

The event is not just a celebration, but affirmation of DNSC’s enduring legacy and future aspirations. As we commemorate this significant milestone, we look forward to continuing our journey of excellence, innovation, and community engagement, ensuring that DNSC remains a beacon of quality education and service in the region and beyond.
